## CHILD PROTECTION POLICY

01 May 2014

## **1. CHILD PROTECTION/SAFEGUARDING ETHOS**

We in Termoncanice Primary School have a responsibility for the Pastoral Care, general welfare and safety of the children in our care and we will carry out this duty by providing a caring, supportive and safe environment, where each child is valued for his or her unique talents and abilities, and in which all our young people can learn and develop to their full potential. All staff, teaching and non-teaching, should be alert to the signs of possible abuse and should know the procedures to be followed. This Policy sets out guidance on the action, which is required where abuse or neglect of a child is suspected and outlines referral procedures within our school

## **2. PRINCIPLES**

The general principles, which underpin our work, are those set out in the UN Convention on the Rights of the Child and are enshrined in the Children (Northern Ireland) Order 1995, the Department of Education (Northern Ireland) guidance "Pastoral Care in Schools - Child Protection" (DENI Circular 99/10) and the Area Child Protection Committees' Regional Policy and Procedures (2005).

The following principles form the basis of our Child Protection Policy.

- It is a child's right to feel safe at all times, to be heard, listened to and taken seriously.
- We have a pastoral responsibility towards the children in our care and should take all reasonable steps to ensure their welfare is safeguarded and their safety is preserved.
- In any incident the child's welfare must be paramount; this overrides all other considerations.
- A proper balance must be struck between protecting children and respecting the rights and needs of parents and families; but where there is conflict the child's interest must always come first.

## **3. OTHER RELEVANT POLICIES**

The school has a duty to ensure that safeguarding permeates all activities and functions. This policy therefore complements and supports a range of other school policies including:

- Behaviour Policy
- Anti-Bullying
- Use of Reasonable Force/Safe Handling
- Special Educational Needs

## **6. WHAT IS CHILD ABUSE?**

Child abuse occurs when a child is neglected, harmed or not provided with proper care. Children may be abused in many settings, in a family, in an institutional or community setting, by those known to them or more rarely, by a stranger. There are different types of abuse and a child may suffer more than one of them. The procedures outlined in this document are intended to safeguard children who are at risk of significant harm because of abuse or neglect by a parent, carer or other with a duty of care towards a child.

We use the following definitions:

**Neglect** is the persistent failure to meet a child's physical, emotional and/or psychological needs, likely to result in significant harm. It may involve a parent or carer failing to provide adequate food, shelter and clothing, failing to protect a child from physical harm or danger, failing to ensure access to appropriate medical care or treatment, lack of stimulation or lack of supervision. It may also include non-organic failure to thrive (faltering growth).

**Physical Abuse** is the deliberate physical injury to a child, or the wilful or neglectful failure to prevent physical injury or suffering. This may include hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, confinement to a room or cot, or inappropriately giving drugs to control behaviour.

**Emotional Abuse** is the persistent emotional ill-treatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that he is worthless or unloved, inadequate, or valued only insofar as he meets the needs of the other person. It may involve causing a child to frequently feel frightened or in danger, or the exploitation or corruption of a child. Some level of emotional abuse is involved in all types of ill-treatment of a child, though it may occur alone. Domestic violence, adult mental health problems and parental substance misuse may expose a child to emotional abuse.

**Sexual Abuse** involves forcing or enticing a child to take part in sexual activities. The activities may involve physical contact, including penetrative or non-penetrative acts. They may include non-contact activities, such as involving children in looking at, or in the production of, pornographic material or watching sexual activities, or encouraging children to behave in sexually inappropriate ways.

A child may suffer or be at risk of suffering from one or more types of abuse and abuse may take place on a single occasion or may occur repeatedly over time.

## **7. PROCEDURES FOR MAKING COMPLAINTS IN RELATION TO CHILD ABUSE**

### **7.1 How a Parent can Make a Complaint**

At Termoncanice Primary School we aim to work closely with the parents/guardians in supporting all aspects of the child's development and well-being. Any concerns a parent may have will be taken seriously and dealt with in a professional manner. If a parent has a concern they can talk to the class teacher or the Principal/Designated teacher for child protection. If they are still concerned they may talk to the Chair of the Board of Governors. At any time a parent may talk to a social worker in the local Gateway team or to the PSNI Public Protection Unit. Details of who to contact are shown in the **flowchart in Appendix 2**.

### **7.2 Where the school has concerns or has been given information about possible abuse by someone other than a member of the school staff**

Where staff become aware of concerns or are approached by a child they should not investigate – this is a matter for the Social Services – but should report these concerns immediately to the designated teacher, discuss the matter with her and make full notes. These notes or records should be factual, objective in nature and include what was seen, said, heard or reported, the place and time of who was present and should be given to the designated teacher. The person who reports the incident must treat the matter in confidence.

The designated teacher may need to seek discreet preliminary clarification from the person making the complaint or giving the information or from others who may have relevant information. The designated teacher may also consult with the Western Education & Library Board's designated officer for child protection or Social Services (Gateway Team) before a referral is made. No decision to refer a case to Social Services will be made without the fullest consideration and on appropriate advice.

The consent of the parent/carers and/or the young person (if they are competent to give this) will normally be sought prior to making a referral to Social Services. The exception to this is where to seek such consent would put that child, young person or others at increased risk of significant harm or an adult at risk of serious harm, or it would undermine the prevention, detection or prosecution of a serious crime including where seeking consent might lead to interference with any potential investigation.

Where consent of the parent/carers and/or the young person is sought to make a referral to Social Services we will explain at the outset, openly and honestly, what and how information will, or could be shared and why, and seek their agreement to making the referral. In circumstances where the consent of the parent/carer and/or the young person is withheld we will consider and where possible respect their wishes. However our primary consideration must be the safety and welfare of the child and we will make a referral in cases where consent is withheld if we believe on the basis of the information available that it is in the best interests of the child/young person to do so.

Where there are concerns about possible abuse and a referral needs to be made the designated teacher will telephone the Western Health & Social Services Gateway Team. She will also notify the Western Education & Library Board's designated officer for child protection. A UNOCINI (Understanding the Needs of

Children in Northern Ireland) referral form will also be completed and forwarded to the Gateway team with a copy sent to the WELB designated officer for child protection.

[This procedure with names and contact numbers is shown in Appendix 3.](#)

The following are guidelines for use by staff should a child disclose concerns of a child protection nature.

**This procedure with names and contact numbers is shown in Appendix 3.**

The following are guidelines for use by staff should a child disclose concerns of a child protection nature.

<b>Do's</b>	<b>Don'ts</b>
Do listen to what the child says.	Don't ask leading questions.
Do assure the child they are not at fault.	Don't put words into the child's mouth.
Do explain to the child that you cannot keep it a secret.	Don't ignore the child's behaviour.
Do <b>document exactly</b> what the child says, using his/her exact words.	Don't remove any clothing.
Do remember not to promise the child confidentiality.	

**7.3 Where a complaint has been made about possible abuse by a member of the school's staff**

If a complaint about possible child abuse is made against a member of staff, the Principal/Designated teacher (or the deputy designated teacher if she is not available) must be informed immediately. The above procedures will apply (unless the complaint is about the Principal/Designated teacher)

If a complaint is made against the Principal/Designated teacher the Chairperson of The Board of Governors will be informed and he/she will ensure that necessary action is taken.

Where the matter is referred to the Social Services the member of staff may be removed from duties involving direct contact with pupils (and may be suspended from duty as a precautionary measure pending investigation by the appropriate authorities). The Chairman of the Board of Governors will also be informed immediately.

Where an allegation is made against a member of staff and is pursued either as a formal referral or under the agreed disciplinary procedures for teacher's, a detailed

record of the complaint, signed by the Principal, shall be retained on the child's file and the file of the member of staff concerned. An entry will also be made in the school's Record of Child Abuse Complaints.

If, on foot of a subsequent investigation by one of the investigating agencies, the member of staff concerned is totally exonerated, the record on the file of the member of staff concerned shall be expunged, and the entry in the school's Record of Child Abuse Complaints deleted or struck through.

However where disciplinary investigation or action is undertaken in the context of child protection, all details relating to the complaint and disciplinary sanction shall be maintained on the teachers file for a period of 5 years. The record on the child's file should be noted accordingly, and should be maintained indefinitely in case there should be subsequent complaints. In all other cases, the record on both the child's file and the staff member's file should be maintained indefinitely

The school's record of Child Abuse complaints will be made available to the Board of Governors/Management Committee at least annually.

This procedure with names and contact numbers is shown in **Appendix 4**.

#### **7.4 Where a complaint has been made about possible abuse by a volunteer**

Any complaint about the conduct of a person working in the school in a voluntary capacity should be treated in the same manner as complaints against a person who is on the school's staff, and the above procedures followed. If the Principal has any concern that a child may be at risk, the services of the volunteer should be terminated immediately.

### **8. ATTENDANCE AT CHILD PROTECTION CASE CONFERENCES AND CORE GROUP MEETINGS**

The Designated Teachers/Deputy Designated Teacher or Principal may be invited to attend an Initial and/or Review Child Protection Case Conference or Core Group meeting convened by the Western Health & Social Care Trust and where possible a school representative will be in attendance. A written report will be provided for these meetings and will be compiled after discussion with relevant staff. Feedback will be given to staff under the 'need to know' principle on a case-by-case basis. Children whose names are on the Child Protection Register will be monitored in line with what has been agreed in each child's protection plan;

### **9. CONFIDENTIALITY AND INFORMATION SHARING**

Information given to members of staff about possible child abuse cannot be held "in confidence". In the interests of the child, staff have a responsibility to share relevant information about the protection of children with other professionals particularly the investigative agencies and where physical or sexual abuse is suspected, a legal duty to report this. However, only those who need to know will be told.

## **10. RECORD KEEPING**

All child protection records, information and confidential notes are kept in separate files in a locked drawer. These records are kept separate from any other file that is held on the child or young person.

If a complaint about possible child abuse is received by the school and is not referred to Social Services – or if it is referred and Social Services do not place the child's name on the Child Protection Register – a record on the child's file will be permanently preserved and a confidential copy will be sent to any school to which the child subsequently transfers.

If the Social Services inform the school that a child's name has been placed on the Child Protection Register, a record of this fact and associated documentation from the Social Services will be maintained on the child's file while he or she continues to attend our school.

When the child's name is removed from the Child Protection Register then all Social Services records will be destroyed and only the school records retained for permanent preservation. Should a child transfer to another school whilst their name is on the Child Protection Register then we will inform the receiving school that his/her name is on the Register and the name of the child's Social Worker will be forwarded as well. All Social Services records held by us in relation to the child will then be destroyed. The schools own child protection records in relation to the child will be held in secure and confidential storage for permanent preservation.

### **Appendix 5(a) and 5(b) – Examples of Record-keeping Proformas**

## **11. VETTING PROCEDURES**

All staff including volunteers who are appointed to positions in the School are vetted in accordance with relevant legislation and Departmental guidance.

## **12. CODE OF CONDUCT FOR ALL STAFF PAID OR UNPAID**

All actions concerning children and young people must uphold the best interests of the young person as a primary consideration. Staff must always be mindful of the fact that they hold a position of trust, and that their behaviour towards the child and young people in their charge must be above reproach. The school has a code of conduct for staff which is intended to assist staff in respect of the complex issue of child abuse, by drawing attention to the areas of risk for staff and by offering guidance on prudent conduct. It is not intended to detract from the enriching experiences children and young people gain from positive interaction with staff within the education sector.

**The schools code of conduct is included as Appendix 6.**

### **13. STAFF TRAINING**

Termoncanice Primary School is committed to in-service training for its entire staff. Each member of staff will receive general training on Policy and procedures with some members of staff receiving more specialist training in line with their role and responsibilities. All staff will receive basic child protection awareness training and annual refresher training. The Principal/Designated Teacher; Deputy Designated Teacher, Chair of the Board of Governors and Designated Governor for Child Protection will also attend relevant child protection training courses.

When new staff or volunteers start at the school they are briefed on the school Child Protection Policy and code of conduct and given a copy of the policy which includes what to do if you are worried that a child is being abused.

### **14. THE PREVENTATIVE CURRICULUM**

In the classroom, regular Circle Time sessions are used as a means of encouraging children to raise social and emotional concerns in a safe environment and to build self confidence, respect and sensitivity among classmates.

Throughout the school year child protection issues are addressed through class assemblies and there is **a permanent child protection notice board in the main corridor and relevant information in each resource area**, which provides advice and displays child helpline numbers. A flow diagram of how a parent may make a complaint is also on display. An enlarged flow diagram for a teacher allegation is in the school staff room.

### **15. MONITORING AND EVALUATION**

Termoncanice Primary School will update this Policy and procedures in the light of any further guidance and legislation as necessary and review it annually.

On-going evaluation will ensure the effectiveness of the Policy.
